# CANADIAN AERONAUTICS AND SPACE JOURNAL

## Index to Volume 30
## 1984

Number 1 — March ..... pp. 1 — 96
Number 2 — June ..... pp. 97 — 192
Number 3 — September ..... pp. 193 — 296
Number 4 — December ..... pp. 297 — 400

### A

AGARD Announcements .... 68, 165, 273, 375
Ahmed, S., H. Borduas, G. Marks and E. Quittner: Canadian Solar Array Developments for Space Applications ..... 3
Aircraft Design in Canada from Silver Dart to Challenger and DASH 8: R.D. Hiscocks 99
Air Cushion Equipment Transporter, Initial Experience with a Three Plenum Cell: R.W. Helm ..... 256
Air Cushion Heave Dynamics, An Experiment on Active Control of: J.R. Amyot and H.S. Fowler ..... 240
Allen, Peter: The Remotest of Mistresses . 299
Amyot, J.R. and H.S. Fowler: An Experiment on Active Control of Air Cushion Heave Dynamics ..... 240
Annual General Meeting Report, 1983 .... 86
Annual Report of the Council, 1983/84 ... 182

### B

Ball, M.A., P. de L. Markham and J.E. Laframboise: Canadian Coast Guard — 1982/83 Trials ..... 311
Bantin, C., R. Richardson and F. Markhauser: Development of a New Generation 6/4 GHz Single Circuit Transportable Earth Terminal 34
Book Reviews:
Flight Patterns — Trends of Aeronautical Development in the United States: R.E. Bilstein ..... 167
Book of Papers — Global Civil Satellite Navigation Systems: The Royal Institute of Navigation 1984 Annual Conference 'NAV 84' ..... 167
Axial Flow Fans and Ducts: R.A. Wallis 168
Borduas, H., S. Ahmed, G. Marks and E. Quittner: Canadian Solar Array Developments for Space Applications ..... 3
Bristol Wire Strike Protection System, The: M.H. Cooper ..... 363
Broadcasting from Satellites, High Latitude Sound: D.G. Stephenson ..... 347

### C

Canadian Aerospace Abstracts 66, 162, 270, 372
Canadian Air Cushion Technology Society News ..... 85, 394
Canadian Coast Guard — 1982/83 Trials: P. de L. Markham, J.E. Laframboise and M.A. Ball ..... 311
Canadian Society of Aviation Medicine News ..... 181, 288
Canadian Solar Array Developments for Space Applications: S. Ahmed, H. Borduas, G. Marks and E. Quittner ..... 3
Chevis, R.W.: Design and Test of Two 8:1 Pressure Ratio Single Stage Centrifugal Compressors of Different Flow Size .... 16
CL-600 Rear Pressure Bulkhead, Using NASTRAN Non-Linear Analysis Capabilities (Solution 64); Structural Analysis of the: A. Oberti ..... 328
Collis, R.L.: Simulators/Training Devices for Commuter Airlines ..... 263
Commuter Airlines, Simulator/Training Devices for: R.L. Collis ..... 263
Compressors of Different Flow Size, Design and Test of Two 8:1 Pressure Ratio Single Stage Centrifugal: R.W. Chevis ..... 16
Computer Program for Assisting in the Preliminary Design of Twin-Engined Propeller-Driven General Aviation Aircraft, A: L.R. Jenkinson and D. Simos ..... 213
Contact Lenses and Other Ophthalmic Innovations and Their Relationship to the Flight Environment: L.G. Hart ..... 120
Cook, D.L.: Development of the PW100 Turboprop Engines ..... 230
Cooper, M.H.: The Bristol Wire Strike Protection System ..... 363
Corke, Tony: Meeting Tomorrow's Standards with Yesterday's Simulators — The Problem of Upgrading ..... 225

### D

DASH 8, R & D in the Evolution of the : B. Eggleston ..... 195

Design and Test of Two 8:1 Pressure Ratio Single Stage Centrifugal Compressors of Different Flow Size: R.W. Chevis ..... 16
Development of a New Generation 6/4 GHz Single Circuit Transportable Earth Terminal: C. Bantin, R. Richardson and F. Markhauser ..... 34
Development of the PW100 Turboprop Engines: D.L. Cook ..... 230

E

Earth Terminal, Development of a New Generation 6/4 GHz Single Circuit Transportable: C. Bantin, R. Richardson and F. Markhauser ..... 34
Eggleston, B.: R & D in the Evolution of the DASH 8 ..... 195
Elvidge, R.L.: Structures in Service — An Airline Point of View ..... 354
Experiment on Active Control of Air Cushion Heave Dynamics, An: J.R. Amyot and H.S. Fowler ..... 240

F

Field Treatment of Hypothermia, The: J.R. Popplow and L.A. Kuehn ..... 114
Flight Controls, Third Generation Digital: M. Rutherford ..... 249
Flying Wing Reconsidered, The: J.V. Foa . 62
Flow Analysis in the Exit Plane of High Turning Angle Turbine Blades: S.C. Sutradhar and J.H.T. Wade ..... 55
Foa, J.V.: The Flying Wing Reconsidered . 62
Fowler, H.S. and J.R. Amyot: An Experiment on Active Control of Air Cushion Heave Dynamics ..... 240

G

General Aviation Aircraft, A Computer Program for Assisting in the Preliminary Design of Twin-Engined Propeller-Driven: L.R. Jenkinson and D. Simos ..... 213

H

Hart, L.G.: Contact Lenses and Other Ophthalmic Innovations and Their Relationship to the Flight Environment ..... 120
Helm, R.W.: Initial Experience with a Three Plenum Cell Air Cushion Equipment Transporter ..... 256
High Latitude Sound Broadcasting from Satellites: D.G. Stephenson ..... 347
Hinchey, M.J. and P.A. Sullivan: Hovercraft Heave Stability ..... 129
Hiscocks, R.D.: Aircraft Design in Canada from Silver Dart to Challenger and DASH 8 ..... 99
Hovercraft Heave Stability: M.J. Hinchey and P.A. Sullivan ..... 129
Hussein, R.: Thermal Stresses in Sandwich Panels ..... 152
Hypothermia, The Field Treatment of: J.R. Popplow and L.A. Kuehn ..... 114

I

Initial Experience with a Three Plenum Cell Air Cushion Equipment Transporter: R.W. Helm ..... 256

J

Jenkinson, L.R. and D. Simos: A Computer Program for Assisting in the Preliminary Design of Twin-Engined Propeller-Driven General Aviation Aircraft ..... 213

K

Kuehn, L.A. and J.R. Popplow: The Field Treatment of Hypothermia ..... 114

L

Laframboise, J.E., P. de L. Markham and M.A. Ball: Canadian Coast Guard — 1982/83 Trials ..... 311

M

Markham, P. de L., J.E. Laframboise and M.A. Ball: Canadian Coast Guard — 1982/83 Trials ..... 311
Markhauser, F., C. Bantin and R. Richardson: Development of a New Generation 6/4 GHz Single Circuit Transportable Earth Terminal 34
Marks, G., S. Ahmed, H. Borduas and E. Quittner: Canadian Solar Array Developments for Space Applications ... 3
Meeting Tomorrow's Standards with Yesterday's Simulators — The Problem of Upgrading: Tony Corke ..... 225

O

Oberti, A.: Structural Analysis of the CL-600 Rear Pressure Bulkhead, Using NASTRAN Non-Linear Analysis Capabilities (Solution 64) ..... 328
Ophthalmic Innovations and Their Relationship to the Flight Environment, Contact Lenses and Other: L.G. Hart ..... 120

P

Popplow, J.R. and L.A. Kuehn: The Field Treatment of Hypothermia ..... 114

Q

Quittner, E., S. Ahmed, H. Borduas and G. Marks: Canadian Solar Array Developments for Space Applications ..... 3

R

R & D in the Evolution of the DASH 8: B. Eggleston ..... 195
Remotest of Mistresses, The: Peter Allen . 299
Richardson, R., C. Bantin and F. Markhauser: Development of a New Generation 6/4 GHz Single Circuit Transportable Earth Terminal 34
Rodgers, C.: Static Pressure Recovery Characteristics of Some Radial Vaneless Diffusers ..... 42
Rutherford, M.: Third Generation Digital Flight Controls ..... 249

S

Simos, D. and L.R. Jenkinson: A Computer Program for Assisting in the Preliminary Design of Twin-Engined Propeller-Driven General Aviation Aircraft ..... 213
Simulators — The Problem of Upgrading, Meeting Tomorrow's Standards with Yesterday's: Tony Corke ..... 225
Simulators/Training Devices for Commuter Airlines: R.L. Collis ..... 263
Space Applications, Canadian Solar Array Developments for: S. Ahmed, H. Borduas, G. Marks and E. Quittner ..... 3
Static Pressure Recovery Characteristics of Some Radial Vaneless Diffusers: C. Rodgers 42
Stephenson, D.G.: High Latitude Sound Broadcasting from Satellites ..... 347
Strike Protection System, The Bristol Wire: M.H. Cooper ..... 363
Structural Analysis of the CL-600 Rear Pressure Bulkhead, Using NASTRAN Non-Linear Analysis Capabilities (Solution 64): A. Oberti ..... 328
Structures in Service — An Airline Point of View: R.L. Elvidge ..... 354
Sullivan, P.A. and M.J. Hinchey: Hovercraft Heave Stability ..... 129
Sutradhar, S.C. and J.H.T. Wade: Flow Analysis in the Exit Plane of High Turning Angle Turbine Blades ..... 55

T

Thermal Stresses in Sandwich Panels: R. Hussein ..... 152
Third Generation Digital Flight Controls: M. Rutherford ..... 249
Turbine Blades, Flow analysis in the Exit Plane of High Turning Angle: S.C. Sutradhar and J.H.T. Wade ..... 55
Turboprop Engines, Development of the PW100: D.L. Cook ..... 230

V

Vaneless Diffusers, Static Pressure Recovery Characteristics of Some Radial: C. Rodgers 42

W

Wade, J.H.T. and S.C. Sutradhar: Flow Analysis in the Exit Plane of High Turning Angle Turbine Blades ..... 55
